PHOTONICS MEDIA photonics.com

MULTIMEDIA PLANNER

Simple Marketing for
Complex Technology

2026

WORLDWIDE COVERAGE OF

LASERS • OPTICS • POSITIONING • SENSORS & DETECTORS • IMAGING

TEST & MEASUREMENT • SOLAR • LIGHT SOURCES • MICROSCOPY

MACHINE VISION • SPECTROSCOPY • FIBER OPTICS • MATERIALS & COATINGS

MISSION STATEMENT

To actively encourage progress and not simply reflect it, for all of us in the photonics industry can best achieve success by sharing our knowledge, our insights, and our visions for the future.

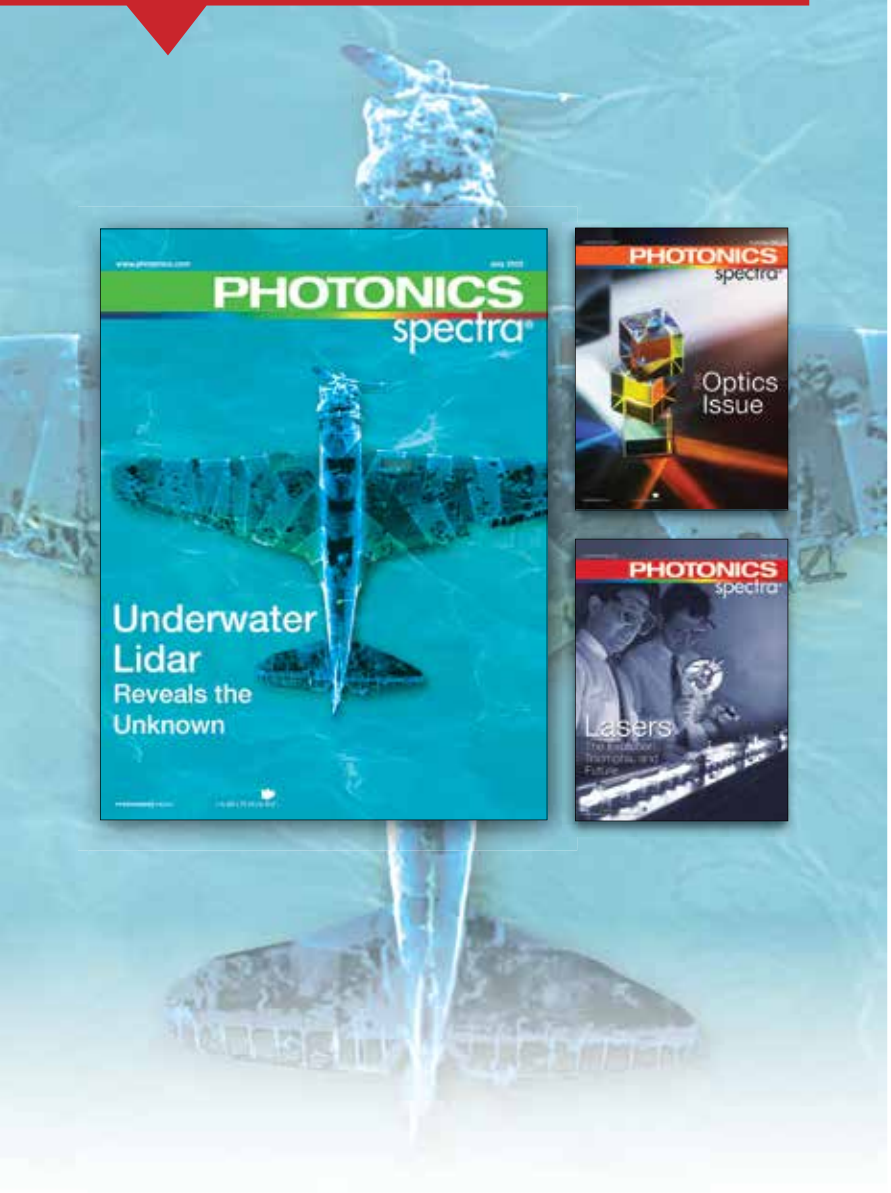
PHOTONICS SPECTRA



Promote your brand to the industry's largest community.

59 years in print

100,000 subscribers*

12 issues per year

- Covering the latest advancements, applications, and trends in lasers, optics, spectroscopy, imaging, and other photonics technologies
- Award-winning editorial coverage

*For complete details, see our June 2025 AAM Consolidated Media Report.
Total Qualified = 100,000 (74,021 Print, 25,979 Digital).

JANUARY
The Trends Issue

- Integrated Optics
- Optical Metrology
- Imaging and AI
- Positioning, Navigation, and Timing
- Ultrashort-Pulse Lasers
- Optical Gratings
- Integrated Photonics Material Platforms

Show Distribution
SPIE BiOS, SPIE Photonics West

● Nov. 26 ● Dec. 4

FEBRUARY

- Microscopy
- Visible Sources
- Co-Packaged Optics
- Photonic MEMS

Show Distribution
DesignCon

● Dec. 30 ● Jan. 6

MARCH
The Optical Networking Issue

- Integrated Lasers
- Automation in Photonics Manufacturing
- Quantum Networks
- Photonics and the Data Center

Show Distribution
OFC, W3+ Fair Wetzlar, SEMI MEMS and Sensors Executive Congress

● Jan. 26 ● Feb. 2

APRIL
The Defense Issue

- Optical Gas Imaging
- Fiber Sensors
- Single-Photon Detectors
- High-Power Laser Optics
- Light Modulators

Show Distribution
AeroDef Manufacturing, PIC International Conference, OPIE, SPIE Defense + Security, SID Display Week, Optatec

● Feb. 26 ● March 5

MAY

- Laser Test and Simulation
- SWIR
- Displays Manufacturing
- Laser Microdrilling

Show Distribution
CLEO, Sensor + Test

● March 30 ● April 6

JUNE

- Optical Design
- Laser Additive Manufacturing
- Lasers for Research
- Positioning Equipment

● April 27 ● May 4

JULY
The Reader Survey Issue

- Ultrafast Lasers
- Spectroscopy: Emerging Applications
- CMOS Image Sensors
- Optical Modulators
- Environmental Sensing

● May 28 ● June 4

AUGUST
The Workforce Issue

- Photonics Workforce
- Optical Fiber
- Semiconductor Lasers
- Quantum Optics

Show Distribution
SPIE Optics and Photonics

● June 29 ● July 6

SEPTEMBER
The Optics Issue

- Pluggable Optics
- Space and Telescope Optics
- Beam Optimization
- Optical Filters
- Micro-Optics

Show Distribution
ECOC, Frontiers in Optics + Laser Science

● July 29 ● Aug. 5

OCTOBER

- Interferometry
- Quantum Devices
- Automotive Lighting
- PICs

Show Distribution
SEMICON West & Flex

● Aug. 27 ● Sept. 3

NOVEMBER

- Laser Materials Processing
- Fusion Energy
- Optoelectronic Devices
- Optical Materials

● Sept. 28 ● Oct. 6

DECEMBER

- Beam Expanders
- Coatings
- Solar Technologies
- Thermoelectric Coolers

● Oct. 26 ● Nov. 2

● **Ad Closing** ● **Materials Due**

Note: Topics for all publications are subject to change.
Please submit abstracts and article proposals at least three months before the issue date.

BIOPHOTONICS

Create brand awareness in the life sciences.

27,500 subscribers*

6 issues per year

- *BioPhotonics* is the industry's only stand-alone publication that covers light in the life sciences
- Reach manufacturers, researchers, and others within the industry
- Concise and easy-to-read information about the components and systems for the laboratory, the clinic, and beyond

*For complete details, see our June 2025 AAM Consolidated Media Report.
Total Qualified = 27,500 (14,096 Print, 13,404 Digital).

VISION SPECTRA

▲ Sample "Vision in Action" spread.

Target your message to the machine vision market.

32,000 subscribers*

4 issues per year

Promote your brand through a publication that's geared especially for the vision community! Get up-to-date insights on the trends shaping the industry, from neural networks and embedded vision to advancements in optics and sensors.

- Rich content — from real-world case studies of vision in action to comprehensive feature articles and columns by experts in the field who are examining the trends that enable Industry 4.0
- Concise and accessible information that is sought after by systems integrators, designers, and end users in industries spanning food and beverage, pharmaceuticals, automotive, defense, and mass transit

- Introduction to Imaging Radiometry and FLIR Research Studio
- Multifunctional Metaoptics: From Science into Your Smartphones
- Terahertz TDS: The Pulse Driving Industrial Innovation
- How to Select a Precision Automation System for High-Volume Optical Alignment
- Laser-Based Particle Analysis: Enhancing Industrial and Biomedical Measurement Systems
- Practical Aberration Correction Using Freeform Optics — Pushing the Boundaries of Laser System Performance
- The Evolution of Microscopy – Current Landscape and Considerations
- Optimization of LED Illumination for Hyperspectral Imaging Applications
- Quantum Sensing with Atomic Systems and Reconfigurable Instrumentation

*Media Owner's Data, October 2025.

VIRTUAL EVENTS

Photonics Media hosts a series of virtual summits focused on emerging and high-demand photonics technologies. Sponsors benefit from high-impact visibility, multiplatform promotion, and full lead access.

SPONSORSHIP INCLUDES

- Full contact information for all summit track registrants
- Logo placement on event web pages and in promotional emails
- Featured video, product, or service on your sponsor profile
- Company featured in social media promotion

AUDIENCE SNAPSHOT

Summits average **545** registrants per event.*

“ALL THINGS PHOTONICS” PODCAST

A Podcast from Photonics Media

All Things Photonics® was a winner of an Eddie & Ozzie Award for Best Science & Nature Podcast. *

- Features intimate conversations with industry leaders, experts, and pioneers from across the photonics landscape
- “All Things Photonics” runs in a quarterly format
- You can find every episode on our website at **www.photonics.com/podcast**, and all major podcast platforms

---

A sponsorship includes a 20-second commercial for three months.
Your company name and web address are also listed in:

- Episode descriptions on **www.photonics.com** and major podcast services
- New episode email alert to 20,000 people

Sponsorships are limited to four per quarter (3 months), and spots are filled on a first-come, first-served basis.

Featured Topics

- Photonic Networks
- Optical Fabrication
- Neurophotonics
- Directed Energy Systems
- Advanced Laser Manufacturing
- Lasers in Defense
- Precision Optics
- Machine Vision

Featured Guests

- Jason Eichenholz
- Donna Strickland
- Tara Fortier
- Andrea Armani
- Joyce Poon
- Matt Eichenfield
- Michal Lipson

*Eddie & Ozzie Awards, Winner 2025, www.eddie-ozzie.com/#eddies-winners.

TRADE SHOW SNEAK PREVIEWS

Maximize your investments for trade shows.

Promote your presence at trade shows.

- Reach industry professionals before major trade shows to drive traffic to your booth and website
- Market your presence to attendees and beyond, targeting by location and technology

40,000 circulation*

2026 SNEAK PREVIEW NEWSLETTERS

VIDEO

PHOTONICS SPECTRA NOW SPONSORSHIP

A weekly newscast delivering the top stories and latest updates from the photonics industry.

- Limit 3 sponsors per month

Pre-Roll Advertisement:
Verbal acknowledgment of the sponsor at the beginning of each newscast

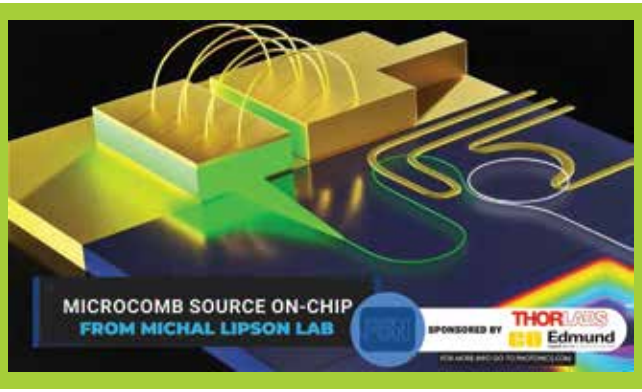
Logo Placement:
Your logo is displayed throughout the newscast and during the introduction and closing credits

Social Media Promotion:
Mention and tagging of the sponsor in our social media posts promoting the newscast

TRADE SHOW VIDEO

Amplify your trade show presence and extend your impact beyond the event itself.

- 2-minute product demo video
- Voice-over including sound bites from an interview with a company representative
- Professional editing (cuts, transitions, advanced titles, background music, and overlays)
- Distribution on Photonics.com, social media channels, and YouTube
- Video will be featured in the Trade Show Recap Newsletter



Our Video Capabilities Include:

- Trade Show Demonstrations
- Product Showcases
- Social Media Quick Cuts
- Long-Form, In-Depth Videos
- Company Overviews
- On-Site Showcases
- Studio Productions

MATERIALS SPECIFICATIONS

Print Guidelines

All RGB and spot colors **must** be converted to CMYK or grayscale**.** Please remove all printer marks (including crop marks) from your ad file. **Printing:** web offset.

Bleed ads must contain at least 0.125" (3 mm) bleed on all sides. All important text, logos, and images should be at least 0.25" (6.4 mm) inside the trim line on all sides to avoid the possibility of getting cut off.

Display Ads: High-resolution (300 DPI), press-optimized PDF files are preferred and all fonts must be embedded. We also support the most current versions of the following Adobe software: InDesign, Photoshop, and Illustrator.

***Buyers' Guide* Logos:** 300 DPI, 4-color TIFF or EPS files preferred, 4" wide; we will resize for print and online.

***Photonics Showcase*:** Printed product unit size is 3.25" wide × 2.25" high (8 units per page). Includes product image and description.

Digital Guidelines

When sending material, please be sure to indicate the URL to which the ad should link.

Online Ads: We accept GIF, JPG, PNG, or HTML files. Ads must include a border, and animation should stop after 20 seconds.

Newsletter Ads: Should be static GIF, JPG, or PNG format.

Submission Instructions: Email to advertising@photonics.com, or you can contact us for details on uploading your files to our Dropbox. Emailed files must be sent as attachments and should be zipped.

Terms and Conditions: Advertising material must adhere to the specifications listed here to ensure the quality of reproduction. Laurin Publishing cannot be held responsible for advertisements that do not comply with these instructions.

Publisher's Protective Clause: Advertisers and their agencies are solely responsible and assume liability for the content of their advertisements. Advertisers and their agencies further agree to hold harmless and indemnify the Publisher against any claim arising from advertisements, including the reasonable cost of defense. The Publisher reserves the right to reject any advertising that does not conform to publication standards. The Publisher cannot be held responsible for circumstances beyond its control, such as a postal strike, an act of God, or action by any governmental or quasi-governmental entity.

CONNECT WITH PHOTONICS MEDIA

Marketing Opportunities: **www.photonics.com/advertise**	Individual Advertising and Editorial Contact Info: **www.photonics.com/contacts**

Photonics Media offers a range of opportunities to share your expertise with a large international audience on a wide array of photonics-related topics, including:

PRODUCT AND RESEARCH NEWS

We post news about the latest research, technical advancements, and products on our website and in each print publication. Send your press release to **webnews@photonics.com** for consideration.

FEATURE ARTICLES

If you would like to contribute a feature article, send a 100- to 150-word abstract to **editorial@photonics.com** outlining your proposed topic. Articles are 1,500 to 2,000 words with four to six images. We will review and respond ASAP.

WEBINARS

If you would like to develop an editorial webinar, contact us to discuss your ideas at **webinar@photonics.com**.

INDUSTRY EVENTS

We post upcoming conferences, courses, and trade shows on our website and in our print publications. Submit your event announcements to **events@photonics.com** for consideration.

VIRTUAL EVENTS

If you are interested in presenting at a summit, please reach out to us with your topics at **conference@photonics.com**.
